

At the heart of most families, a child is born and comes into this already challenging world with so much to offer. An infant is a precious gift that brings an abundance of love, happiness, laughter and joy to everyone around them.

For our children who face health challenges right from birth, their fight becomes even more arduous. Parents go above and beyond, tirelessly seeking breakthroughs and striving for a brighter future for their children. Together, we endeavor to create a world where their potential can flourish and their dreams can become a reality.

THE VISION OF M&S FOUNDATION IS TO ASSIST A CHILD WITH A PHYSICAL CONGENITAL DISABILITY TO OBTAIN THE NECESSARY MEDICAL ACCESSIBILITIES AND ASSISTANCE TO CORRECT THIS INFIRMITY IN ORDER TO HAVE **A HEALTHIER LIFE.**

The foundation concentrates on children born with a physical deficiency and disabilities preventing them from having a normal upbringing; an insufficiency that may affect their mobility, their respiratory system and/or internal organs to digest and extract fluids fluently and naturally. It can be that a child with an irregular heartbeat or a cleft lip need assistance to finance the restructuring of the child's palette and lip or that a baby is born with club-foot and requires reconstructive surgery and re-education.

THE FOUNDATION'S COUNCIL HAS THE CORE RESPONSIBILITY TO RAISE CAPITAL OR SEEK SPONSORSHIPS WHEREBY THEY CAN THEN PROVIDE **A NEW OPPORTUNITY** TO A FAMILY OR SUPPORT IN A PHYSICAL AND TANGIBLE WAY FOR THE FAMILY TO BETTER CATER FOR THE CHILD'S MEDICAL NEEDS.

Since all of us are not blessed or bestowed of being born perfectly healthy or have the funding to provide ourselves with options and opportunities in these economically difficult times; sometimes we need to look for those who may be able to support us in more ways than one.

Sanjeev K.S Gopaul and the Team at Credentia International and Global are ***Paying It Forward***. The foundation and its dedicated team are actively working to raise capital with the aim of offering enhanced opportunities to

children and their families one family at a time. By mobilising resources and funds, they are striving to provide these children and families with better access to medical treatments and support services, ultimately fostering a brighter future for both the child and their family. Should you know of anyone that may need assistance, please do not hesitate to contact the foundations representatives.
